video solutions

A better view of your business

Using our simple and intuitive mobile app, you can keep an eye on your business while also monitoring staff, equipment and inventory for one or multiple locations, no matter where you are.

→ See everything

Keep an eye on all of the important activities in your business. With live-streaming, recorded video clips and multi-site viewing, it's easy to monitor your business.

→ The right cameras for your business

An extended line of compatible cameras is available and offers the perfect solution for larger property types or businesses that require numerous cameras.

Cameras

Indoor/outdoor mini bullet camera

Indoor/outdoor dome camera

→ Easy cloud-based recording

Secure, 24/7 cloud recording options eliminate the need for additional hardware and enables access to live and recorded video clips.

Recorders & Servers

Stream video recorder (SVR)

Video Server

→ Gain secure and reliable video

Unlike traditional CCTV/DVR video surveillance systems, our video solutions provide reliable, off-site storage that cannot be disabled or damaged.
