Business insights

STANLEY Interactive business insights deliver critical information to help you run your business more efficiently.

- Receive daily and weekly reports that summarise critical information about your business across multiple locations
- Activity reporting analyses customer traffic allowing you to:
 - Understand what your busiest hours are
 - Know when employees are opening the store
 - Maximise staffing efficiency
 - Track the impact of promotions on customer traffic
- Open/Close reports summarise arming activity
- Receive notifications if employees are arriving late or leaving early

Video solutions for business

→ See everything

Keep an eye on all of the important activity at your business. With single and multi-site viewing, live-streaming and recorded video, it's easy to monitor the key aspects of your business when you can't be there.

→ Gain secure and reliable video

Unlike traditional video surveillance systems, STANLEY Security can provide reliable, off-site storage that cannot be disabled by employees or damaged if your business experiences a fire or flooding.

→ Easy cloud-based recording

Secure, 24/7 cloud recording options eliminate the need for additional hardware and enables access to live and recorded video clips.

Energy management

Reduce energy waste automatically and enhance liability control with energy management and automation services. Having connected lights, locks and thermostats ensures that your business is comfortable when it's open and safe when it's closed.

→ Get total climate control

Control your smart thermostats automatically, and on-the-go. Keep your business at an appropriate temperature and prevent employees from making changes.

→ Reduce energy costs

Use thermostat schedules to automatically save money during closed hours, but ensure that it's comfortable by the time you open again in the morning.

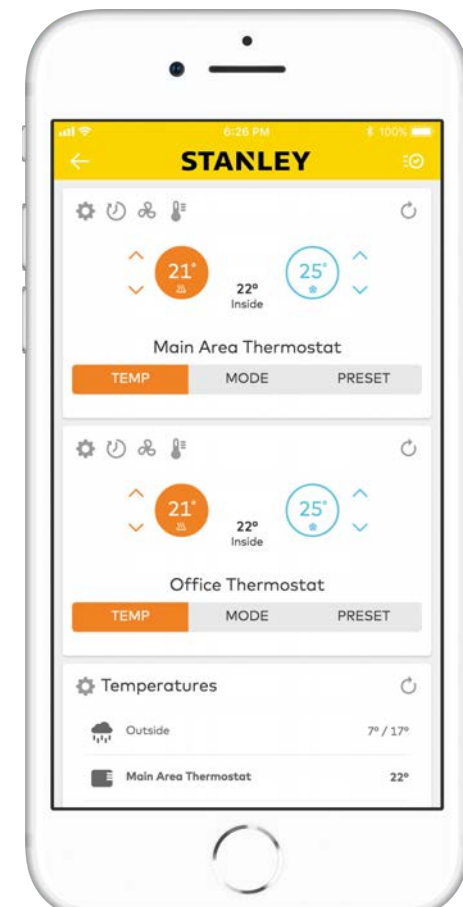

→ Improve property management

Get notified when the thermostat setting is changed or the refrigerator door is left open to manage temperatures and reduce waste.

→ Scheduled lighting

Easily set up lighting schedules to keep your business safe and well lit, reducing liability risk.

Complete energy management in a single app

STANLEY[®]

Security

Endorsed by experts

The New York Times

"I found the system powerful and easy to use. I especially liked the way the system's components work together."

*Reviews relate to the technical platform.

WIRED

"One of the coolest integrations we saw [at the Apple Watch keynote event] was all the stuff you can control through the app using the watch. Security cameras, lights, locks, doors. Just a few taps and you can keep tabs... from anywhere."

CNN

"An innovative app to control everything from locks and lights to security systems and thermostats."
