Looking after your business

Choose the right security package
to protect your people and premises

STANLEY Security provides industry-leading, always-on security for your business. With reliable monitoring and seamlessly integrated bespoke solutions, you stay in control and your business stays safe.

Smart business security packages at a glance

Creating the best one for your business is simple.

1 Choose your security bundle

You can select from the following options: Interactive Pro, Interactive Pro Vision, Interactive Pro Access and Interactive Pro Multi.

2 Tailor your security system

Select additional devices like cameras, motion detectors and sensors to complement your chosen security bundle.

3 Choose your smart business monitoring option

Pick your preferred monitoring levels from STANLEY Smartguard, STANLEY Watchguard, and STANLEY Watchguard with Police Response.

1 Choose your bundle

Take a look at our security packages below and choose the one that best meets your needs.

Interactive Pro & Interactive Pro Vision

Access Control

Interactive Pro Multi

When you secure multiple sites with us, you can choose different packages for each one, and add centralised security management.

All our system bundles offer the following advanced functionalities and intuitive system controls through our STANLEY Interactive app.

- Professional installation
- Crash and smash protection
- Grade 2 alarm system
- Door and window protection stickers
- Business reports
- Enterprise management
- Smartphone control and notifications
- Remote arm and disarm
- Real-time alerts
- Property awareness
- Advanced automation

Business reports

Easy-to-understand reports let you quickly see activity patterns across your business and spot unexpected changes.

Advanced automation

STANLEY Interactive connects your thermostats and lighting to your security system for a smarter, more responsive way of saving energy and reducing your business running costs.

Proactive service

With our STANLEY Interactive packages, you receive one service visit a year, and one remote service per year.

STANLEY OneView management

Access multiple sites from one platform with STANLEY OneView. Available with the STANLEY Interactive Pro Multi package.

24/7/365 video monitoring		●	●
Key-holder live response		●	●
Police response			●

Monitoring you can trust

With decades of experience in alarm monitoring, you can be sure nothing gets past us. Our alarm monitoring centres operate 24/7, and are Category II NSI Gold Standard BS5979 accredited, giving you peace of mind at all times.

Key-holder live response

In the event of an alarm activation, STANLEY Security will contact all designated key-holders for any form of alarm, irrespective of priority. This can be an operator calling or we can text or email the details as well.

Police response

This can speed up police response times and increase the chance of interrupting would-be criminals – or catch them red-handed.

STANLEY®

Security

Endorsed by experts

The New York Times

"I found the system powerful and easy to use. I especially liked the way the system's components work together."

WIRED

"One of the coolest integrations we saw [at the Apple Watch keynote event] was all the stuff you can control through the app using the watch. Security cameras, lights, locks, doors. Just a few taps and you can keep tabs... from anywhere."

CNN

"An innovative app to control everything from locks and lights to security systems and thermostats."

Reviews relate to the technical platform.
