

**STANLEY**  
Security

## Security solutions for every type of business

STANLEY Security is a global provider of integrated security solutions for local, regional, multi-site and national organisations.

For those who make the World™ Safer

STANLEY Security is the leading global provider of security and life safety systems.

STANLEY Security represents a global network of resources, state-of-the-art technology and a culture dedicated to excellence, where its employees have the expertise, the equipment and the processes they need to deliver the finest integrated security solutions in the industry.

We currently cater for the World's largest retailers, financial service institutions, education, industry, government, commercial and major transport and logistics companies to local businesses throughout the UK. The Customer First Team set the highest standards of monitoring, service, maintenance and training. Our national call centre is based in the UK and is in constant contact with our engineering team to quickly respond to your needs, anywhere in the UK.

For those who make the World™ Safer

Our family of brands

**STANLEY Assure™** is the finance solution for customers wishing to benefit from up to date technology without the risks of ownership and with evenly spread, manageable payment terms.

The concept is simple, in return for an agreed, manageable and regular payment covering all aspects of your security requirements, Stanley Security provides you with the very latest security technologies combined with a service and monitoring package that is specifically tailored to meet your individual business needs – not just for now, but also in the future.

### Benefits

- Benefit from having the best security technology and services without the need to own equipment outright
- No need for a large, upfront capital outlay
- Easy budgeting with clear visibility of monthly payments
- Flexibility to adjust the terms of the agreement as your own business circumstances change
- Wide range of flexible service options
- Ease of dealing with one provider for equipment, services and finance

## → New Innovations

Our brands are known for pushing the boundaries of what's possible, while bringing fresh twists to familiar, indispensable products. But that's not enough for us. We intend to become a leader in smart innovation.

### Stanley Connected Assets

Connected Assets is a platform that can manage and provide actionable data, so if an asset fails or requires maintenance, the right engineer can be sent to the right location with the correct part every time.

### Stanley Cloud Access Control

Truly cost effective cloud based access control solution that can be managed via a laptop or mobile app 24/7.

### Stanley Cloud CCTV

Lets you and Stanley video monitoring specialists see and document what's occurring within your locations.
