STANLEY Smart Nurse Call

The Altra care range is the latest wireless nurse call system designed specifically for the care home sector

SMART NURSE CALL

The Altra Care Wireless Nurse Call System is the latest Nurse Call System on the market, combining Smart Mobile Technology with the best of Wireless Nurse Call.

CONNECTIVITY

Built in Bluetooth® and WiFi sensors, allowing connectivity and integration with a wide range of devices.

- Wireless accessories
- Smart device integration

CAPABILITY

The multiple on-board sensors mean your Nurse Call System will allow you to monitor resident and staff activity throughout your care home, enhancing your ability to provide the safest possible environment for those you care for.

- Fall detection
- Movement monitors

RELIABILITY

The system uses the dedicated European 869.2MHz social alarms frequency to reduce interference. The 'listen before talk' anti-collision technology and acknowledgement of calls ensures calls are received reliably.

SIMPLICITY

Easy programming and configuration.

Comes with 3 Year Warranty*

The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Courtney Thorne is under license. Other trademarks and trade names are those of their respective owners.

How a call is made

Altra Call
Allows calls from carers and residents

Altra Pull
Allows calls from carers and residents

Altra Assist
Allows calls from bathroom / toilet

Altra Wear
Multi purpose staff and resident wearables

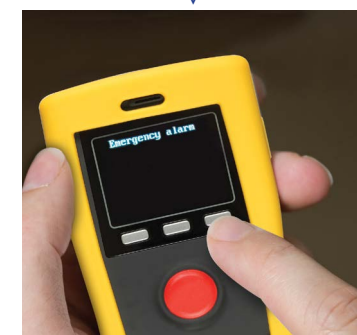

Altra Guard
Activates when a door is opened for added protection and security

Assistive Technology
Activates when a resident gets out of their bed / chair

How a call is logged

Altra Touch
Allows you to personalise your system. Provides data / reports to assist with home management and providing clear accountability / evidencing

Pager
A carer can be alerted and directed by a pager

How a call is displayed

Altra MiniTouch
Ideal to display calls in communal areas

Altra Light
Alerts carers to calls outside the residents room

Why Wireless?

Simplicity – Our installation process is simple and clean with no wiring required, allowing us to work in an operational care home without disruption to staff and residents.

Flexibility – The modular nature of the system means it can be added to and reconfigured with ease, providing your home with a system that can grow and adapt to an ever changing care home.

Value – This competitively priced system can bring you savings of up to 40% against a hard wired alternative.

Information – Easy to view 'real time' reports are accessible at the click of a button, showing how many calls occur, how quickly they are responded to and which nurse responded.
