Security

Securing what's precious to you

Choose the right security package
for your home

STANLEY Security is an industry leader, offering best-in-class smart home security so you can monitor, protect and automate your home. Securing what matters to you is easier than ever.

Smart home security packages at a glance

Choosing the right one for you is simple.

1 Choose your security bundle

Three options are available: Interactive Plus, Interactive Home or Interactive Vision.

2 Tailor your security system

Select additional devices like cameras, motion detectors and sensors to complement your chosen security bundle.

3 Choose your smart home monitoring option

Pick your preferred monitoring levels from STANLEY Homeguard, STANLEY Watchguard, and STANLEY Watchguard with Police Response.

1 Choose your bundle

Take a look at our three packages below and choose the one that best meets your needs.

- Professional installation
- Smartphone control and notifications
- Crash and smash protection
- Remote arm and disarm
- Grade 2 alarm system
- Real-time alerts
- Door and window protection stickers
- Two-way voice

Crash and smash protection

This service keeps your system working even if the security panel is damaged.

Smarter energy

STANLEY Interactive connects your thermostats and lighting to your security system for a smarter, more responsive set of options for saving energy.

Connected home

With real-time data from the security sensors and connected devices around your home, STANLEY Interactive can understand your activity patterns and take smarter actions on your behalf.

Geo services

STANLEY Interactive geo services can automatically trigger your system to send you an arming reminder, turn your outside lights on or off, or even cool or heat your house.

24/7/365 video monitoring		●	●
Key-holder live response		●	●
Home police response			●

Monitoring you can trust

With decades of experience in alarm monitoring, you can be sure nothing gets past us. Our accredited alarm monitoring centres operate 24/7, so you can have peace of mind at all times.

Key-holder live response

In the event of an alarm activation, STANLEY Security will contact all designated key-holders for any form of alarm, irrespective of priority. This can be an operator calling or we can text or email the details as well.

Home police response

This can speed up police response times and increase the chance of interrupting would-be criminals – or catch them red-handed.

Security

Endorsed by experts

The New York Times

"I found the system powerful and easy to use. I especially liked the way the system's components work together."

WIRED

"One of the coolest integrations we saw [at the Apple Watch keynote event] was all the stuff you can control through the app using the watch. Security cameras, lights, locks, doors. Just a few taps and you can keep tabs... from anywhere."

CNN

"An innovative app to control everything from locks and lights to security systems and thermostats."

Reviews relate to the technical platform.
